Daily Standup Meeting

Project Name: Betting systems for games	Group Name: Seven Logistics
Sprint Number: 1	Date and Time: 26 January 13:16 – 14:18

List of attendance:

- Name: Nunkoo Riya Attended? YES
- Name: Hau Yam Seung Mélanie Attended? YES
- Name: Coret Mégane Attended? YES
- Name: Ramtohul Syrielle Attended? YES
- Name: Sedoyeka Rayan Attended? YES

Project Progress:

Team Member (1): Name: Nunkoo Riya

1. What did you accomplish yesterday?
   Answer:
   - necessary research has been done to understand the overall roles of each teammate so as to understand how to plan and delegate tasks
   - research has been done for each program stage to know how to structure the technical report for the project.

2. What will you do today?
   Answer:
   - Discussion to put forward the knowledge we have on the given title on the project
   - Discussion on the known technologies that are used for this type of project and see what is feasible to create the project's outline and create the necessary requirements.

3. What obstacles are impeding your progress?
   Answer:
   - None encountered

Team Member (2): Name: Hau Yam Seung Mélanie

1. What did you accomplish yesterday?
   Answer:
   - Understand the module catalogue and the requirements
   - Understand what different roles do.

2. What will you do today?
   Answer:

- Research some WinForm ideas to share on the next meeting.

3. What obstacles are impeding your progress?
   Answer:
   - Unfamiliar with visual studio, C# and WinForms.

<u>Team Member (3): Name:</u> Coret Mégane

1. What did you accomplish yesterday?
   Answer:
   - Researched the tasks and responsibilities associated with each role in our group, especially the developers.
   - Reviewed coursework requirements.

2. What will you do today?
   Answer:
   - Research on football betting systems to understand how they work.
   - Research UI designs for football betting apps.
   - Draft an initial interface design for the app using Canva.
   - Research on WinForms to understand how to implement the application interface.
   - Discuss which functionalities an ai agent could handle.

3. What obstacles are impeding your progress?
   Answer:
   - Unfamiliar with visual studio and WinForms.
   - Lack of knowledge on how betting system works.

<u>Team Member (4): Name:</u> Ramtohul Syrielle

1. What did you accomplish yesterday?
   Answer:
   - Discuss roles and responsibilities of team members.
   - Analyse coursework requirements.

2. What will you do today?
   Answer:
   - Research on WinForms (forms, toolbox, designer tool).
   - Research on football betting websites.
   - Research on different betting functionalities (odds, bet slip, bet placement).
   - Help draft an initial interface design for the app using Canva.
   - Discuss how AI agents can be implemented in the betting system.

3. What obstacles are impeding your progress?
   Answer:
   - Unfamiliar with Visual Studio and WinForms.
   - Limited knowledge on betting systems.
   - Difficult to understand technical terms used in betting platforms.

Team Member (5): Name: Sedoyeka Rayan

1. What did you accomplish yesterday?
   Answer:
   - Analysing coursework requirements.
   - Research on the different responsibilities group members have based on their role.

2. What will you do today?
   Answer:
   - Make a document explaining how football betting system works to help the other members have a better understanding.
   - Find the bet types we can implement in the app.
   - Research on testing techniques.

3. What obstacles are impeding your progress?
   Answer:
   - Unfamiliarity with visual studio.
   - Cross-compatibility issues with windows-based tools as I am working on a Mac.

"Alone we can do so little; together we can do so much." – Helen Keller
