Daily Standup Meeting

Project Name: Betting systems for games	Group Name: Seven Logistics
Sprint Number: 5	Date and Time: 2 March 2026, 14:10 – 15: 23

List of attendance:

- Name: Nunkoo Riya Attended? YES
- Name: Hau Yam Seung Mélanie Attended? YES
- Name: Coret Mégane Attended? YES
- Name: Ramtohul Syrielle Attended? YES
- Name: Sedoyeka Rayan Attended? YES

Project Progress:

Team Member (1): Name: Nunkoo Riya

1. What did you accomplish yesterday?
   Answer:
   - complete visualisation diagrams such as gantt chart and use case diagram
   - edit technical report for project management

2. What will you do today?
   Answer:
   - Review progress with stakeholder (lab tutor)
   - Discussion and reflection on overall project progress

3. What obstacles are impeding your progress?
   Answer:
   - Lack of research on how to properly manage team

Team Member (2): Name: Hau Yam Seung Mélanie

1. What did you accomplish yesterday?
   Answer:
   - Keep updated on team progress through group chat messages.
   - Wrote key features to mention in the project management report.

2. What will you do today?
   Answer:
   - Attend meetings, continue monitoring team progress and assisting members if needed.

3. What obstacles are impeding your progress?
   Answer:
   - No major blockers at the moment.

Team Member (3): Name: Coret Mégane

1. What did you accomplish yesterday?
   Answer:
   - Created a user control for the navigation bar to make it easier to implement it in several forms.
   - Completed the profile page.
   - Linked profile page to backend functionalities.

2. What will you do today?
   Answer:
   - Implement classes to represent and store details of teams, leagues and matches.
   - Implement the data structures for teams, leagues and matches.
   - Implement the backend functionalities to fetch teams, leagues and matches from database.
   - Implement code to filter matches by league and team's name.
   - Do the activity diagrams.
   - Complete the use case diagram.
   - Start the Main Page using WinForms.

3. What obstacles are impeding your progress?
   Answer:
   - Lack of data to test dynamically displaying matches on the Main Page.
   - Uncertainty about how to calculate the betting odds.
   - Uncertainty about how to fetch and display the different bet types on the Main Page.

Team Member (4): Name: Ramtohul Syrielle

1. What did you accomplish yesterday?
   Answer:
   - Completed custom controls.
   - Completed front-end validation for password popup.
   - Linked password popup to backend.

2. What will you do today?
   Answer:
   - Create BaseForm class with resizing functionality so that forms inheriting from it automatically resize based on window size.
   - Develop a notification class to handle user feedback.
   - Integrate notification functionality with login and registration features.

- Use API to collect data to populate database.
- Write functions for backend validation.
- Draft the actions for the use case diagram, detailing the actors and the actions they perform.

3. What obstacles are impeding your progress?
   Answer:
   - Restricted number of API requests.
   - Inconsistent data for names of players.
   - Pre-match odds not retrievable for available seasons to fetch data from.
   - Merge conflicts with version control.
   - Resources and property folder conflicts preventing certain images from loading properly.

Team Member (5): Name: Sedoyeka Rayan

1. What did you accomplish yesterday?
   Answer:
   - Made changes on DatabaseManager.cs code according to the latest changes and prepared the test cases for the User.cs and WalletServices.cs files

2. What will you do today?

   Answer:

   - Write the Unit test codes for the User.cs code and WalletServices.cs codes

3. What obstacles are impeding your progress?
   Answer:

   - BettingSystemsTest.Tests.csproj is builds BettingSystem.csproj first which included WinForms files which are missing files, so test execution stops before validation test runs due to my pc using MacOS.

"Alone we can do so little; together we can do so much." – Helen Keller
