Daily Standup Meeting

Project Name: Betting systems for games	Group Name: Seven Logistics
Sprint Number: 9	Date and Time: 30 March 2026, 14:45 – 15:30

List of attendance:

- Name: Nunkoo Riya Attended? YES
- Name: Hau Yam Seung Mélanie Attended? YES
- Name: Coret Mégane Attended? YES
- Name: Ramtohul Syrielle Attended? YES
- Name: Sedoyeka Rayan Attended? YES

Project Progress:

Team Member (1): Name: Nunkoo Riya

1. What did you accomplish yesterday?
   Answer:
   - Worked on the pseudocodes for the list and linked list data structures.
   - Started the testing section in the project management report.
   - Started working on the limitations of the project report.

2. What will you do today?
   Answer:
   - Update the Gantt chart according to the task completed.
   - rework on pseudocodes for data structures in separate document to put on repo.
   - Update general structure of project report and edit the design section and testing sections of report.
   - Update structure of project management report and work on project design implementation.

3. What obstacles are impeding your progress?
   Answer:
   - None

Team Member (2): Name: Hau Yam Seung Mélanie

1. What did you accomplish yesterday?
   Answer:
   - Ask the scrum master about tasks remaining

2. What will you do today?
   Answer:

- Check on the reports and gantt chart

3. What obstacles are impeding your progress?
   Answer:
   - Time limitation because of other projects

<u>Team Member (3): Name:</u> Coret Mégane

1. What did you accomplish yesterday?
   Answer:
   - Implemented custom data structures
   - Refactored code to use custom data structures instead of STL.
   - Updated the justification for the data structures in the project report.
   - Triggered events from simulator class to update UI.
   - Added page for admin to view, search and filter matches.
   - Added popup for admin to view outcomes of completed matches.
   - Reviewed SQL statements for database.

2. What will you do today?
   Answer:
   - Discuss possible useful functions of the AI Agent that can be implemented with the limited time.
   - Complete code for match simulator.
   - Ensure match simulation feature is updating database and UI.
   - Review code for generating odds.
   - Update reports and system design diagrams.
   - Write the README file.

3. What obstacles are impeding your progress?
   Answer:
   - Uncertainty on how to implement the AI agent effectively.

<u>Team Member (4): Name:</u> Ramtohul Syrielle

1. What did you accomplish yesterday?
   Answer:
   - Address remaining irregularities for data source files.
   - Extended SessionManager with navigation methods.
   - Optimised SQL queries.
   - Tested SQL code to confirm foreign key conflicts are resolved.
   - Researched AI agent integration and realistic use cases for the betting system.

2. What will you do today?

Answer:

- Evaluate which ideas can be implemented within time constraints for the AI agent.
- Research on data visualisation tools in Winforms.
- Create page with DataGridView to display all users on Admin side.
- Implement method to fetch all users.
- Implement method to update users' status.
- Create models for financial summaries.
- Implement method to calculate total revenue, payouts and profits.
- Implement method to aggregate financial data by month.
- Implement method to group transactions by type per month.
- Implement method to count bets by status.
- Refactor admin side pages with custom data structures
- Implement AI agent

3. What obstacles are impeding your progress?
   Answer:
   - Compatibility issues when using LiveCharts as the project runs on .NET 10, preventing access to certain features.
   - Cumbersome to implement DataColumn ComboBox in admin side due to unfamiliarity with some of its properties.

Team Member (5): Name: Sedoyeka Rayan

1. What did you accomplish yesterday?
   Answer:
   - Added new match service tests .
   - Added Bet Slip Filter tests.
   - Added Simulator Tests.
   - Added Match manager tests.
   - Added Session Manager tests.

2. What will you do today?
   Answer:
   - Add data structure tests for all the three implemented data structures.
   - Update the database Manager tests to include the latest changes and additions from. simulator codes, Bet Slips, Match Manager and the data structure codes.
   - Add comments to all the test codes.
   - Add odds generation tests.

3. What obstacles are impeding your progress?
   Answer:
   Inability to pull some of the codes from other team member branches

"Alone we can do so little; together we can do so much." – Helen Keller
