Daily Standup Meeting

Project Name: Betting systems for games	Group Name: Seven Logistics
Sprint Number: 3	Date and Time: 9 February 2026, 14:00 – 15:12

List of attendance:

- Name: Nunkoo Riya Attended? YES
- Name: Hau Yam Seung Mélanie Attended? YES
- Name: Coret Mégane Attended? YES
- Name: Ramtohul Syrielle Attended? YES
- Name: Sedoyeka Rayan Attended? YES

Project Progress:

Team Member (1): Name: Nunkoo Riya

1. What did you accomplish yesterday?
   Answer:
   - Learning about ER diagrams and draft a diagram for our database system
   - Drafting the requirements from all the stakeholders identified.

2. What will you do today?
   Answer:
   - Discussion on overall interface design for pages and popups and alerts
   - Finishing the requirements that are implemented in the app
   - Redraft the database using ERD

3. What obstacles are impeding your progress?
   Answer:

Team Member (2): Name: Hau Yam Seung Mélanie

1. What did you accomplish yesterday?
   Answer:
   - Research on the overall project
   - Understanding team role

2. What will you do today?
   Answer:
   - Continue tracking any team progress or discussions

3. What obstacles are impeding your progress?

Answer:

- Limited contributions to development tasks due to role focus

Team Member (3): Name: Coret Mégane

1. What did you accomplish yesterday?
   Answer:
   - Completed documentation of functional and non-functional requirements.
   - Completed setting up the database.
   - Completed the login and registration validation.
   - Completed the backend functionalities for registration and login.
   - Added functions to hash passwords for better security.
   - Learned how to use WinForms.
   - Added an AppUser class to represent and store user's information.

2. What will you do today?
   Answer:
   - Develop the backend functionalities for withdrawing and depositing money in digital wallet.
   - Create a popup in WinForms for withdrawing and depositing money in digital wallet.
   - Link the popup to the backend functionalities to update user's wallet balance in database.
   - Decide which main data structures to use.

3. What obstacles are impeding your progress?
   Answer:
   - It took time to familiarise myself with WinForms.
   - Had difficulties understanding and working with the layouts in WinForms.
   - Encountered DPI scaling issues which affected how the forms appeared.

Team Member (4): Name: Ramtohul Syrielle

1. What did you accomplish yesterday?
   Answer:
   - Developed frontend functions to connect login/registration form to backend.
   - Completed Landing Page.
   - Implemented navigation to login panel and registration panel.

2. What will you do today?
   Answer:

- Implement frontend input validation (colour change to indicate valid/invalid input.)
- Validation for wallet popup fields.
- Decide which main data structures to use.

3. What obstacles are impeding your progress?
   Answer:
   - Difficult to create smooth and responsive animations.
   - Some features caused the interface to glitch and lag.

<u>Team Member (5): Name:</u> Sedoyeka Rayan

1. What did you accomplish yesterday?
   Answer:
   - Research to gather data for populating database
   - Explained the concept of bet slips to other members.

2. What will you do today?
   Answer:
   - Continue with the testing.
   - Search on how to display testing results.

3. What obstacles are impeding your progress?
   Answer:
   - Tracking changes in repository.
   - Development environment not fully supported on operating system.

"Alone we can do so little; together we can do so much." – Helen Keller
